

# CO2 Neutral label certificate

## COMPANY LABEL - SILVER LEVEL

Client reference: N° 23/448  
Certification start date: 18/10/2023  
Certification end date: 17/10/2024

CO2logic certifies that **Desmedt** has calculated its **company** carbon footprint, set up a concrete reduction plan and offset remaining emissions (**632 tCO2**) by supporting certified climate projects.

The operational scope of work covers Scope 1, Scope 2 and partial Scope 3 (fuel and energy related activities not included in scopes 1 and 2, waste generated by operations, business travel and employee commuting) emissions for **FY 2022**.

**Desmedt** ambition is to reduce its **company** emissions as follows:

- to reduce scope 1 & 2 emissions and partial scope 3 (3.1 Purchased goods and services, 3.3 Fuel and energy related activities (not included in scope 1 or scope 2), 3.5 Waste generated in operations, 3.7 Employee commuting) by **42%** in **2030** in comparison with **2020**,
- to yearly **offset** remaining **emissions** through certified carbon credits.

Every CO2 Neutral label is reviewed and validated by Vinçotte, an independent international certifying authority. Through an in-depth audit, Vinçotte controls the implementation of the CO2logic approach: calculate, reduce and offset CO2 emissions.

All information related to the CO2logic approach and the certification process can be consulted on our dedicated website [www.co2-neutral-label.org](http://www.co2-neutral-label.org) and all the information related to this climate journey is made available through the individual OR code present on the label:
